

Creating a Coursepack

You can create any number of coursepacks themed and organized for your course. To get started:

1. Create a login account
 - a. Click “Login”
 - b. Click “Create New User”
 - c. Fill in the details. Use no spaces in your username.
2. Login
3. Option 1: Browse the collection with “Browse and Search”
 - a. Select a text to add to your coursepack by selecting the checkbox next to your title.
 - b. You can select multiple items by checking multiple boxes.
 - c. Click “Add selected to coursepack”
 - i. If you’ve already created a coursepack and want to add content to it, select the appropriate coursepack from the dropdown menu in the popup.
 - ii. If you’re creating a new coursepack, select “Create coursepack from selected” from the popup.
 - iii. Give your coursepack a name and a description. These can be edited later.
 - iv. Your selections will be added.

☒ "The Love Song of J. Alfred Prufrock" by Eliot, T.S.
Source: Poetry: A Magazine of Verse (Chicago: Harriet Monroe, 1915)
"The **Love Song**" "The **Love Song**" THE **LOVE SONG**

☒ **Headnote:** Headnote for T. S. Eliot by Howe, Tonya
Eliot's first major poetic success was "The **Love Song** of J. Alfred Prufrock," published in 1915 in Poetry, an important magazine then edi...

4. Option 2: Add an item from a text page.
 - a. Navigate to the page of a text you'd like to include.
 - b. Click "+ Custom Coursepack" tab from the left side of the page.
 - i. If you've already created a coursepack and want to add content to it, select the appropriate coursepack from the dropdown menu in the popup and click "Save."
 - ii. If you're creating a new coursepack, select "Create new coursepack from selected" in the popup.
 - iii. Give your coursepack a name and a description. These can be edited later.
 - iv. Your selections will be added.

5. Option 3: Add a selection from a text to a coursepack.
 - a. Navigate to the page of a text you'd like to include.
 - b. Find your desired continuous excerpt, and highlight it by selecting the portion with your mouse.
 - c. Click the "+ Custom Coursepack" tab from the left side of the screen.
 - i. If you've already created a coursepack and want to add content to it, select the appropriate coursepack from the dropdown menu in the popup and click "Save."

- ii. If you're creating a new coursepack, select "Create new coursepack from selected" in the popup.
 - iii. Give your coursepack a name and a description. These can be edited later.
 - iv. Your excerpt will be added.
- d. **NOTE:** Do not use the Hypothesis annotation tools to add content! These will pop up once you've highlighted a portion of text, because you can also annotate a selection using Hypothesis.
